Skills

Proficient:

- HTML, CSS, JavaScript, Typescript, **React**, Redux, **Node** & Express
- **PostgreSQL**, REST APIs, **Git** & Github.

Moderate:

- Linux, AWS & CI/CD (Circle Ci)

Example Projects (*Refer to my Github for all projects*)

Udagram Full-Stack App

02/2/2022: 5/02/2022

- Deployed a Full-stack Application on AWS (Elastic Beanstalk, S3 bucket & CI/CD: CircleCi)
- Successfully passed the tedious deployment process with AWS & CI/CD

Gym App (React-native)

27/07/2021: 24/08/2021

- Building a Gym App that display the excursuses with the instructions
- Using Firebase to store the images and instructions

Confusion Restaurant (React & Redux)

23/07/2020: 19/10/2020

- A project uses React & core Redux to make restaurant website and mobile app that connected over node js backend.
- The user create account via signup and then reserve table and can order online also.

Work Experience

Remote Freelance

E-commerce Website
Currently working on a E-commerce full stack website.

06/2022 : Present

- Now building a full stack E-commerce website with Reactjs.
- As efficacy and attention to details is required I use Firebase as backend for the admin panel and website and in the future I will work on full backend.

Egypt Cairo

Frontend Web Developer
As volunteer in EngBreak Student activity

2/2020 : 5/2020

- We created and hosted website for healthy food
- Using React we created Rest API application
